MESSAGE

Dear Dr Shilpi Mohan,

I appreciate and i am in receipt of your work, Medivision 2047, published in “The Hitavada” and recognise the prescience and foresight displayed by you in the article. It is indeed a shared dream that we look forward to turning into reality. Moreover, it is vital that all 1.35 Billion of us work together, hand-in-hand towards this common goal. It is appreciable that not only are you practicing Cardiology but are also promoting holistic healing, the Indian Way, for the overall wellbeing of the people. This has been aptly reflected in the motto chosen by you, “अनामयम् - निरामयाः - *May all be blessed with wellbeing and be free from illness and suffering*” . I extend my best wishes and blessings to you in all your future endeavours.
